Description of use:

1. /v4/gezocht

Search APB's. Use consecutive methods to retrieve APB's of a specialized type. Results are sorted on descending date (newest first).

Parameters

uid (string)

Uid of document or page

language (string)

Select objects in given (valid) language. Defaults to 'nl'.

Default value : nl

query (string)

Terms to query for. Length of the query is limited to 100 characters.

lat (string)

Latitude of the GPS coordinate used for search.

lon (string)

Longitude of the GPS coordinate used for search.

radius (string)

Radius in kilometer around the given GPS coordinate to search for objects. Allowed values are: 0.5, 2.0, 5.0 (default), 10.0 and 25.0.

Default value : 5.0

maxnumberofitems (string)

Maximum number of objects to return. Allowed values are 10 (default) and 25.
Default value : 10

offset (string)

Offset of the first object in this set (skipped items). This value must be a multiple of maxnumberofitems.

Default value : 0

Example

<https://api.politie.nl/v4/gezocht?language=nl&lat=53.1511173&lon=6.756634599999984&radius=5.0&maxnumberofitems=10&offset=0>

2. /v4/wijkagenten

Search local officers in the near vicinity of a given GPS coordinate. Results are sorted on ascending distance from the coordinate. If no data is found within the given radius, the radius is expanded (up to 25 km) until data is found.

Parameters

language (string)

Select objects in given (valid) language. Defaults to 'nl'.
Default value : nl

lat * (string)
Latitude of the GPS coordinate used for search.

lon * (string)
Longitude of the GPS coordinate used for search.

radius (string)
Radius in kilometer around the given GPS coordinate to search for objects. Allowed values are: 0.5, 2.0, 5.0 (default), 10.0 and 25.0.
Default value : 5.0

maxnumberofitems (string)
Maximum number of objects to return. Allowed values are 10 (default) and 25.
Default value : 10

offset (string)
Offset of the first object in this set (skipped items). This value must a multiple of maxnumberofitems.
Default value : 0

Example

<https://api.politie.nl/v4/wijkagenten?language=nl&lat=53.1511173&lon=6.756634599999984&radius=5.0&maxnumberofitems=10&offset=0>

Responses

3. /v4/nieuws

Search news messages. The resultsets contains all messages. Use nieuws/lokaal to retrieve local news only. Results are sorted on descending date (newest first). A maximum of 200 messages is returned.

Parameters

uid (string)

Uid of document or page

language (string)

Select objects in given (valid) language. Defaults to 'nl'.

Default value : nl

query (string)

Terms to query for. Length of the query is limited to 100 characters.

fromdate (string)

Select only messages newer than given date (including). Dateformat is YYYYMMDD.

todate (string)

Select only messages older than given date (including). Dateformat is YYYYMMDD.

lat (string)

Latitude of the GPS coordinate used for search.

lon (string)

Longitude of the GPS coordinate used for search.

radius (string)

Radius in kilometer around the given GPS coordinate to search for objects. Allowed values are: 0.5, 2.0, 5.0 (default), 10.0 and 25.0.

Default value : 5.0

maxnumberofitems (string)

Maximum number of objects to return. Allowed values are 10 (default) and 25.

Default value : 10

offset (string)

Offset of the first object in this set (skipped items). This value must a multiple of maxnumberofitems.

Default value : 0

Example

<https://api.politie.nl/v4/nieuws?language=nl&query=drie%20personen&radius=5.0&maxnumberofitems=10&offset=0>

Responses

200: successful operation

Example Value

4. /v4/politiebureaus

Search police stations in the near vicinity of a given GPS coordinate. Results are sorted on ascending distance from the coordinate... If no data is found within the given radius, the radius is expanded (up to 25 km) until data is found.

Parameters

lat * (string)
Latitude of the GPS coordinate used for search.

lon * (string)

Longitude of the GPS coordinate used for search.

Radius (string)

Radius in kilometer around the given GPS coordinate to search for objects. Allowed values are: 0.5, 2.0, 5.0, 10.0 and 25.0. Default value : 5.0

Maxnumberofitems (string)

Maximum number of objects to return. Allowed values are 10 and 25. Default value : 10

Offset (string)

Offset of the first object in this set (skipped items). This value must a multiple of maxnumberofitems.

Default value : 0

Example

<https://api.politie.nl/politiebureaus/v1?lat=53.1511173&lon=6.756634599999984&radius=5.0&maxnumberofitems=10&offset=0>

}
```

6. [/v4/nieuws/lokaal](#)

Search local news messages. The resultsets contains local messages. Use nieuws to retrieve all news. Results are sorted on descending date (newest first). A maximum of 200 messages is returned.

Parameters

language (string)

Select objects in given (valid) language. Defaults to 'nl'.

Default value : nl

query (string)

Terms to query for. Length of the query is limited to 100 characters.

fromdate (string)

Select only messages newer than given date (including). Dateformat is YYYYMMDD.

todate (string)

Select only messages older than given date (including). Dateformat is YYYYMMDD.

lat * (string)

Latitude of the GPS coordinate used for search.

lon * (string)

Longitude of the GPS coordinate used for search.

radius (string)

Radius in kilometer around the given GPS coordinate to search for objects. Allowed values are: 0.5, 2.0, 5.0 (default), 10.0 and 25.0.

Default value : 5.0

maxnumberofitems (string)

Maximum number of objects to return. Allowed values are 10 (default) and 25.

Default value : 10

offset (string)

Offset of the first object in this set (skipped items). This value must a multiple of maxnumberofitems.

Default value : 0

Example

<https://api.politie.nl/v4/nieuws/lokaal?language=nl&lat=53.15&lon=6.75&radius=5.0&maxnumberofitems=10&offset=0>

}
```

7. /v4/gezocht/gezochtepersonen

Search all APB's on persons. Results can be fugitives and wanted persons. Most wanted persons are not included in this list and can be retrieved using the method 'gezocht/nationaleopsporingslijst'. Results are sorted on descending date (newest first).

Parameters

language (string)

Select objects in given (valid) language. Defaults to 'nl'.

Default value : nl

query (string)

Terms to query for. Length of the query is limited to 100 characters.

lat (string)

Latitude of the GPS coordinate used for search.

lon (string)

Longitude of the GPS coordinate used for search.

radius (string)

Radius in kilometer around the given GPS coordinate to search for objects. Allowed values are: 0.5, 2.0, 5.0 (default), 10.0 and 25.0.

Default value : 5.0

maxnumberofitems (string)

Maximum number of objects to return. Allowed values are 10 (default) and 25.

Default value : 10

offset (string)

Offset of the first object in this set (skipped items). This value must a multiple of maxnumberofitems.

Default value : 0

Example

<https://api.politie.nl/v4/gezocht/gezochtepersonen?language=nl&radius=5.0&maxnumberofitems=10&offset=0>

Responses

200: successful operation

8. */v4/gezocht/nationaleopsporingslijst*

Search most wanted fugitives APB's. Results are sorted on descending date (newest first).

Parameters

language (string)

Select objects in given (valid) language. Defaults to 'nl'.

Default value : nl

query (string)

Terms to query for. Length of the query is limited to 100 characters.

lat (string)

Latitude of the GPS coordinate used for search.

lon (string)

Longitude of the GPS coordinate used for search.

radius (string)

Radius in kilometer around the given GPS coordinate to search for objects. Allowed values are: 0.5, 2.0, 5.0 (default), 10.0 and 25.0.

Default value : 5.0

maxnumberofitems (string)

Maximum number of objects to return. Allowed values are 10 (default) and 25.

Default value : 10

offset (string)

Offset of the first object in this set (skipped items). This value must a multiple of maxnumberofitems.

Default value : 0

Example

<https://api.politie.nl/v4/gezocht/nationaleopsporingslijst?language=nl&radius=5.0&maxnumberofitems=10&offset=10>

Responses

200: successful operation

Example Value

10. /v4/gezocht/dossiers

Search case files. Results are sorted on descending date (newest first).

Parameters

language (string)

Select objects in given (valid) language. Defaults to 'nl'.

Default value : nl

query (string)

Terms to query for. Length of the query is limited to 100 characters.

lat (string)

Latitude of the GPS coordinate used for search.

lon (string)

Longitude of the GPS coordinate used for search.

radius (string)

Radius in kilometer around the given GPS coordinate to search for objects. Allowed values are: 0.5, 2.0, 5.0 (default), 10.0 and 25.0.

Default value : 5.0

maxnumberofitems (string)

Maximum number of objects to return. Allowed values are 10 (default) and 25.

Default value : 10

offset (string)

Offset of the first object in this set (skipped items). This value must a multiple of maxnumberofitems.

Default value : 0

Example

<https://api.politie.nl/v4/gezocht/dossiers?language=nl&radius=5.0&maxnumberofitems=10&offset=0>

11. /v4/vermist

Search missing persons (without unidentified persons). Use consecutive methods to retrieve missing children, adults or unidentified persons. Results are sorted on descending date (newest first).

Parameters

uid (string)

Uid of document or page

language (string)

Select objects in given (valid) language. Defaults to 'nl'.

Default value : nl

query (string)

Terms to query for. Length of the query is limited to 100 characters.

lat (string)

Latitude of the GPS coordinate used for search.

lon (string)

Longitude of the GPS coordinate used for search.

radius (string)

Radius in kilometer around the given GPS coordinate to search for objects. Allowed values are: 0.5, 2.0, 5.0 (default), 10.0 and 25.0.

Default value : 5.0

maxnumberofitems (string)

Maximum number of objects to return. Allowed values are 10 (default) and 25.

Default value : 10

offset (string)

Offset of the first object in this set (skipped items). This value must a multiple of maxnumberofitems.

Default value : 0

Example

<https://api.politie.nl/v4/vermist?language=nl&radius=5.0&maxnumberofitems=10&offset=0>

Responses

200: successful operation

13. /v4/vermist/vermistevolwassenen

Search missing adults. Results are sorted on descending date (newest first).

Parameters

language (string)

Select objects in given (valid) language. Defaults to 'nl'.

Default value : nl

query (string)

Terms to query for. Length of the query is limited to 100 characters.

lat (string)

Latitude of the GPS coordinate used for search.

lon (string)

Longitude of the GPS coordinate used for search.

radius (string)

Radius in kilometer around the given GPS coordinate to search for objects. Allowed values are: 0.5, 2.0, 5.0 (default), 10.0 and 25.0.

Default value : 5.0

maxnumberofitems (string)

Maximum number of objects to return. Allowed values are 10 (default) and 25.

Default value : 10

offset (string)

Offset of the first object in this set (skipped items). This value must a multiple of maxnumberofitems.

Default value : 0

Example

<https://api.politie.nl/v4/vermist/vermistevolwassenen?language=nl&radius=5.0&maxnumberofitems=10&offset=0>

Responses

200: successful operation

Example Value

14. /v4/vermist/ongeidentificeerd

Search unidentified persons. Results are sorted on descending date (newest first).

Parameters

uid (string)

Uid of document or page

language (string)

Select objects in given (valid) language. Defaults to 'nl'.

Default value : nl

query (string)

Terms to query for. Length of the query is limited to 100 characters.

lat (string)

Latitude of the GPS coordinate used for search.

lon (string)

Longitude of the GPS coordinate used for search.

radius (string)

Radius in kilometer around the given GPS coordinate to search for objects. Allowed values are: 0.5, 2.0, 5.0 (default), 10.0 and 25.0.

Default value : 5.0

maxnumberofitems (string)

Maximum number of objects to return. Allowed values are 10 (default) and 25.

Default value : 10

offset (string)

Offset of the first object in this set (skipped items). This value must a multiple of maxnumberofitems.

Default value : 0

Example

<https://api.politie.nl/v4/vermist/ongeidentificeerd?language=nl&radius=5.0&maxnumberofitems=10&offset=0>
