

**No breakthrough yet  
in investigation into  
baby found at lake**

***Can you  
help us?***

« waakzaam en dienstbaar »

## ***The criminal investigation department needs your help!***

We need your help regarding the found baby Amy in Wernhout [the Netherlands]. She was found on May 12 on the shore of a small lake in Wernhoutsburg. The police assume that she was probably laid down there between 9 and 12 May.

Despite very intensive efforts by the police, the fate of baby Amy has not yet been clarified. But we intend to do all we can and are therefore stepping up the investigation.

### **Will you help us to get clarity?**

We know from similar cases that the mother may have denied her pregnancy to herself or may have tried to hide it. It is also possible that the mother did not have a fat belly.

Have you noticed a girl or woman who seems to have changed in any way? For example, avoiding efforts such as sports activities or withdrawing a lot around the date of finding Amy (and afterwards)?

The as yet unknown mother of the girl may have been in a desperate situation. We think she needs help.

Have you seen anything else that can help us? A situation that at first glance seemed insignificant may be of great importance to the investigation team. Do not hesitate to get in touch!
